EXPERIENCE

Fleet Team, Inc. — Account Management Intern

Independence, OH

May 2026 – Present

- Identified ~\$46,000 in client cost savings while reconciling **103 STR accounts** for billing and usage accuracy.
- Uncovered pricing discrepancies across ~100 **supplier MSAs**, ensuring clients were billed at current negotiated rates and eliminating recurring overcharges.
- Replaced a slow, manual account-mapping process with **3 automated HTML tools** spanning ~2,200 **accounts**, usable internally and client-facing.
- Engineered a **SQL query** bridging account, contact, and invoice data across **240 Salesforce accounts**, surfacing each customer's **two most senior contacts** on demand.

Mont Granite, Inc. — Summer Intern

Solon, OH

Jun–Aug 2023 | Jun–Jul 2025

- Identified an unaddressed support gap and independently built "Synthesis GPT," an internal AI assistant now used by **10+ staff**, cutting support delays ~80%.
- Produced **50+ photorealistic renderings** deployed across **4 showrooms**, driving product storytelling and customer visualization during sales conversations.
- Trained **10+ members** of sales & design team on AI and rendering tools, enabling consistent usage across **8 locations**.

Speranza Resources Ltd. — Procurement/Buying Team Intern

Espirito Santo, Brazil

July 2024 (6 days)

- Secured a **52% bundle price reduction (\$13.50 → \$6.50/sq ft)** by framing the deal around the supplier's incentive to offload slow-moving inventory for higher-margin stock, alongside QA spot-checks across multiple factories.

Fleet Feet, Inc. — Sales Associate

Strongsville, OH

Mar 2024 – May 2024

- Diagnosed each customer's actual need rather than pitching product, earning trust that translated directly into higher basket sizes and **\$750–\$800** in personal daily sales.

PROJECTS

Discounted Cash Flow Model — rohandhruv.com

- Built a full DCF Valuation Model with **adjustable growth, WACC, and terminal value assumptions**, personally developing all financial logic and inputs while directing implementation in Claude Code.

Interactive LRAS/AD Macroeconomics Graph — rohandhruv.com

- Built an interactive LRAS/AD visualization modeling **2 scenarios** (baseline vs. Strait of Hormuz shock) with real-time updates.

Portfolio Growth Simulator — rohandhruv.com

- Built an interactive portfolio growth simulator modeling starting investment, monthly contributions, time horizon, and stock/bond allocation, with bull/bear scenario toggles shifting average annual returns by **2.5 points**.
